

Miguel Mateos

Product Designer

I am Miguel Mateos, UX/UI Designer with more than 5 years experience at design and visual communication. Passionate at typography, illustration and art.

During these five years I have managed to develop projects that stand out for their functional design and for the delicacy in the details.

Love design cause is a process to solve problems in the product that affect to the experience and feeling of the user.

Experience in the following industries: Banking and Insurance, Retail, Human Resources, Telecom, Foodstuff, etc...

Love to continue learning every day, surround myself with professionals to learn, create new concepts and try new design tools.

The three quotes that best define me are:

"Design is not decoration, it's an action plan", "The form follows the function", "To innovate is to grow".
